

## **FSL Hummingbird Hearts**

For these little beauties I have digitized them in light pink with a blue Hummingbird.

However, I think any colors will be nice as long as the heart is lighter than the hummingbirds themselves. I gave my testers licence to do these in any colors that they would like so that you the purchaser can see what they look like in the different colors.

You can embroider them out in your own color schemes.

Thanks for purchasing the FSL Hummingbird Hearts.

Ardy
