

T-Shirt Tabs

Please Read all instructions carefully before starting

These T-Tabs are just wonderful for your over-sized T shirts.
They match the necklines design sets.

They quite easy to make and don't take a lot of time.

You can use any type of fabric you like. And Med Weight Tearaway Stabilizer
Happy Stitching!

1- placement stitch----after stitching this stitch place fabric over hoop right side up.

2- Then stitch #2 This will tack down the fabric in place.(DO NOT TRIM YET)

- 3- Now follow CC for stitching design in place.
- 4- after design stitches slide a piece of fabric under hoop (this is your bottom, make sure the right side of fabric is face down).

- 5- Stitch the tackdown stitch—this stitches the front and the back together. Now remove hoop and trim the fabric from the front and back as close as possible without clipping the threads.

6- Return hoop to machine and stitch next color, this is the satin edging.

7- Now stitch last color, this is the lg satin button holes.

Color Changes
