

Doggy Note-holder Instruction STEPS--

1. Cut piece of iron on stabilizer large enough to fit securely in 4X4 hoop.
2. Cut piece of felt 5X5 and fuse it onto your stabilizer. You can use a product like Wonder Under or any Iron On stabilizer. Iron it in center of stabilizer.

3. Hoop stabilizer with felt and sew thread steps 1 & 2 (outline and small zigzag stitch around). Remove stitched

felt/stabilizer sandwich from hoop.

4. Cut out piece of felt along lines and spray lightly with spray adhesive - Set aside.
5. Place medium weight piece of stabilizer in hoop and stitch the same outline. (thread steps 1 & 2 - outline and small zigzag stitches)
6. Take hoop out of machine (do NOT take stabilizer out of hoop).
7. Take cut out felt and place it directly over outline on hooped stabilizer and press down to secure, using pins to secure if needed
8. Place hoop back onto sewing machine.
9. Sew another outline stitch and small zigzag stick to secure felt securely.
10. If using felt Be Sure To Use a top layer of (Water Soluble stabilizer) Solvy (light weight

will do) over felt to prevent stitches from sinking into fabric.

11. Proceed with sewing pattern, up to the final outline. (Last 3 thread changes)
12. Be sure to use the same thread in your bobbin as you are using for your satin stitching
13. Slip two pieces of medium weight stabilizer and one iron on (not tear-away) under the pattern on the hoop. Make sure the iron on stabilizer is facing UP.
14. Finish by sewing outline.
15. Unhoop. Tear away layers of stabilizer and cut away the last iron on stabilizer from note pad. Iron back of note pad so the adhesive sticks to pad.
16. Secure magnets of choice to top of the back of the note pad.
