

FSL Halloween Mini Designs

IDEAS:

These Halloween Mini Designs can be used for:

- A Desk Halloween Tree
- Earrings
- On Ribbon for a bookmark
- Placed as a medallion on a chain for a necklace
- Tied into a bow for a Halloween gift treat bag
- Tied on to a Barret for the hair
- Looped on ribbon or string and used on the car rearview mirror
- Party favor decorations

These are only limited by your imagination.

A note about Free Standing Lace:

Always use water solvable stabilizer.

I prefer the opaque as the clear will tear too easily

It is very important that you use the same thread in your bobbin as the top thread.

If there are color changes in FSL, be sure to change your bobbin to match.

Even when stitching in white, the bobbin thread needs to be embroidery thread.

This will make it very difficult to tell the front from the back. This is the look that you want from FSL.

Hope you enjoy your new FSL designs!
