

Heart Sucker Covers 2

Please note that the first 2 color change steps are the same for each design.

1- Hoop tear-a-way stabilizer and stitch out Cc1 color step. This is a Placement stitch, then place fabric over hoop making sure the stitching is covered by the fabric.

2- Stitch Cc2 color step, this will tack down the fabric and hold it in place.

3- Next follow Cc steps for design your stitching.

Cute Stuff

Cc1- placement stitch

Cc2- tack down stitch

Cc3- lettering(color of your choice)

Cc4- Satin Finish Stitch

NOW slide a piece of the backing fabric under the hoop, making sure its large enough to cover the heart area.

Cc5- Last color change will sew across bottom side then it will jump over to the other side and stitch the other bottom side of heart. It will leave a opening in the middle for the sucker stick to slide through.

6-Remove from hoop and cut around the heart being careful not to cut threads and then your done.

Using pinking sheers or other decorate scissors gives it a nice finish.
