

My Sea Friends Book

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING PROJECT.

SUPPLIES:

Fabric of your choice for front and back

Threads of your choice

Tear-a-way or Water soluble stabilizer(this works well so you don't have any fuzzies around the edges)

Cotton Batting(optional)

Color 1 - placement stitch

After stitching placement stitch, place cotton batting & fabric over top of stitching. Pictured Below

Color 2 - tack down fabric & batting to stabilizer.

Remove hoop from machine and trim around stitching being careful not to cut threads. Return hoop to machine.

Color 3 - zig-zag stitch over edges.

NEXT- follow color changes for each design and then refer to rest of directions.

After stitching design there are 3 color changes left.

You will need to remove the hoop and cut the bobbin thread so you can slide your back fabric under hoop, make sure right side is facing down.

Then stitch the 3rd from last color-this will stitch the back to the hoop.

Remove hoop and trim away fabric close to stitching and trim inside the circles like pictured below return hoop to machine and stitch last 2 colors to finish.

After stitching all pages string ribbon thru holes and tie together.

Color Change Chart

Color chart is only suggested colors, be creative and use what you like!

Front
