

## Instructions for Applique Kleenex box covers

1-- Hoop med. Tear-a-away stabilizer sew the first outline.

2-- Take hoop off the machine spray with temp. spray adhesive and place your material over the outline, place hoop back on machine.

3—Sew lily design then remove hoop, spray with temp adhesive and place backing fabric over back of hoop, replace hoop on machine.

4—Sew tack down stitches then remove hoop again and trim close to stitching on front and back then place hoop back on machine.

5—Stitch last stitch(satin finish stitch).

Sew 4 sides & 1 top per box.

Top.... hoop stabilizer sew outline put a piece of material on the top of the outline sew the outline and oval then the design on the top, after this stitch remove hoop from machine and then turn the hoop over, spray with temp spray adhesive, place fabric over back outline stitching. Place hoop back on machine and stitch tack down stitches, remove hoop again and trim around stitching and inside of oval being careful not to cut the stabilizer. Return hoop to machine and stitch last color(satin finish stitch).

To put the Kleenex box together:

Use a zig-zag stitch and sew the sides to the top of cover then match up the bottom corners and stitch up to top very carefully.
