

INSTRUCTION

Stages of work in video
<https://youtu.be/BNIRwpNjWes>

1. Download the design from the website to your computer.
2. Unzip the file. Upload the embroidery file to your machine.
3. Hoop 2 layers of water-soluble mesh. Embroidery the design.
Embroider the files 1, 2, 3.
4. Rinse the stabilizer in lukewarm water and leave to air dry. Press with steam.

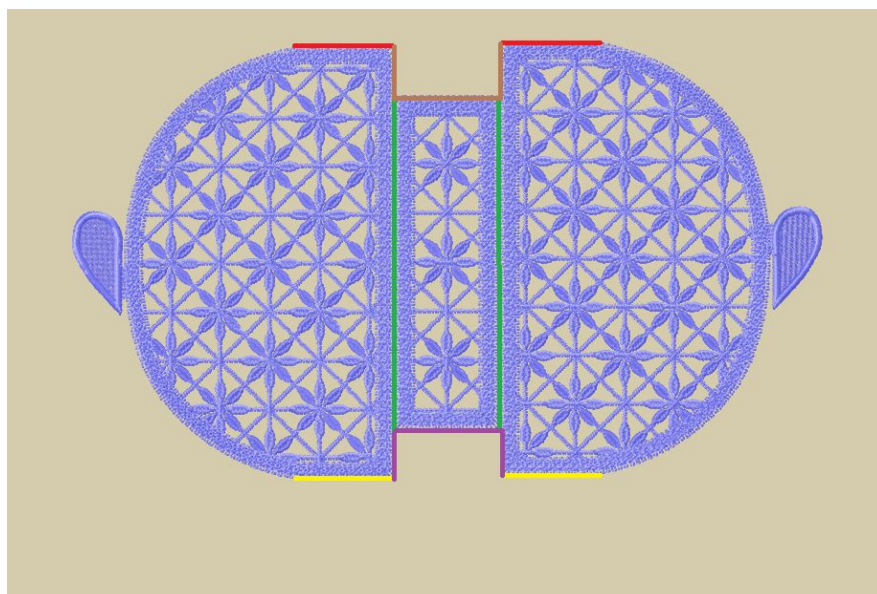

It is important

Always make a test stitch-out of the design and wash away the stabilizer. This helps you to select the threads, needles, stabilizers and settings of your machine correctly.

To get 2-sided embroidery you should use the same thread for the needle thread and bobbin thread.

5. Stitch in hand on these lines.

Thank you for your purchase.
