

FSL-Butterflies-4x4-THJ-NLS

NLSEE1680-4x4

NLSEE1681-4x4

NLSEE1682-4x4

Instructions

1. Hoop water-soluble stabilizer in a 4x4 inch embroidery hoop and attach to machine.
2. Transfer design to embroidery machine.
3. Make sure the needle thread and bobbin thread are the same because the free standing lace butterfly will be viewed from both sides.
4. Sew the design.
5. Remove hoop from machine and project from hoop.
6. Cut away stabilizer from around the butterfly—do not cut close to stitches.
7. Place in warm water until most of the stabilizer has dissolved.
8. Remove butterfly from water and place on a paper towel. Blot with paper towel.
9. Lay flat to dry. You should have left enough stabilizer to help stiffen the project.
10. Enjoy the designs-slip into a card for a special person, hang in a window or car, hand stitch onto clothing. Etc.
