

# FSL-Pretty-Blooms-Bookmarks-5x7-DAH-NLS

## Instructions

These FSL Bookmarks are to be sewn on a single layer of Water-Soluble Stabilizer. They require a 5x7 inch embroidery hoop. Refer to the **Color Charts** or select your own colors for the designs.

Each design can be stitched in the multi-colored design or in mono-color. When stitching the multi-color designs, **make sure you change your bobbin thread to match the needle thread each time there is a color change** because the bookmarks will be viewed from both sides.

The photos below show the designs sewn in multi-color and mono-color.
