Creating In-The-Hoop Coasters

Instruction

Use In-The-Hoop technique to create something unique very quickly.

Coaster with Pillowcase Lining (Backing)

Coasters can be combining few embroidery techniques for top embroidery, different coaster's shape, etc. But they have same common idea how to do finish it as coaster.

Create Lining

Cut for lining 2 pieces of fabric. Size should be 1-1.5" more than half of the design.

Take each piece of your lining fabric and fold on 0.5-1 inch the long way. Iron / press. If you wish, stitch by hand or sewing machine this folded edges.

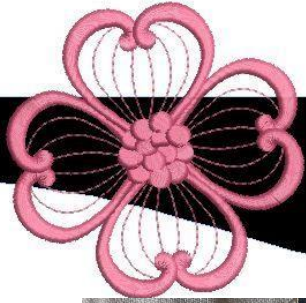

Embroidery and assembling

1. Stitch coaster as regular design up to the last stage
How to recognize there will this stage?

Before last stage you will stitch marks where you will need apply the coaster lining (backing). Se marks on picture.

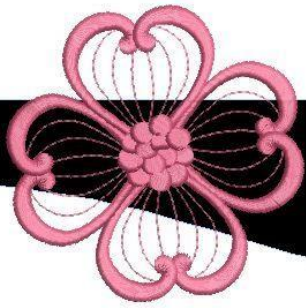

2. Remove hoop from the machine but do not unhoop anything
3. Place one lining with folded edge over the top of the mask as pictured. You can start to do it from any sites top or bottom, it's doesn't matter.

4. Cover next piece of lining as pictured.

5. Secure your lining in the hoop by sticky tape or pins. So, it does not pucker or bunch up.
6. Run machine and tack your lining (backing) fabric.

7. Remove the hoop from the machine and unhoop the finished embroidery.
8. Carefully cut around the design leaving 5-7 mm
9. Do seam preparation to remove extra batting (if you used that) and cut seam for smooth top edge line. Make it depends of coaster shape. See pictures.

10. Now you can turn your coaster right side out through the lining side opening.

11. Press your coaster.

Enjoy your new project!!!

THANK YOU!
