

MOM CHRISTMAS

Frame 10x10cm and 13x18cm

Materials:

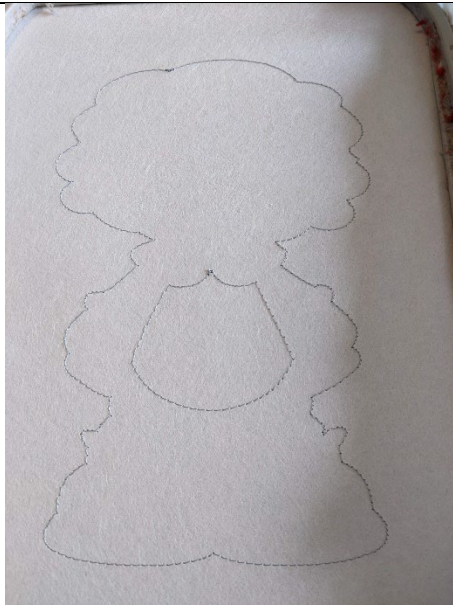

Frame 10x10 : 2 pieces of felt 11x11cm

Frame 13x18cm: 2 pieces of felt of 13x19cm

Small piece of vinyl for the belly

Ribbon

If you resize or modify this design in any way, I can't guarantee a quality point.

Make the first seam on your support to tell you the location of your vinyl and felt

Put your little piece of vinyl on the belly part

This seam will hold your vinyl in place, cut the excess all the way around

Put on your felt, taking care to hide all the seam

This seam will hold your felt in place and tells you which part of felt to remove on the belly

Make the embroidery stitches until the penultimate seam

Remove the felt from your vinyl

Turn your work and on the reverse remove your support on the part that is on the vinyl

Put your 2nd piece of felt on the back of your frame taking care to hide all the seam, keep in place

Make the last seam that will join your 2 felts together

Get out of the frame and cut off the excess felt all around. On the back you have to cut as for the front

With a poinçon make a hole in the center of the small circle in the top

Put the sweets or other
and close with a ribbon
