Read all instructions before starting

SUPPLIES:

Tear-a-way or Wash-a-way Stabilizer

Thread of your choice

Fabric pieces

CC – Stands for Color Change

Prepare fabric pieces as follows:

Cut 3 6x6 blocks for each bookmark. You can mix and match your fabrics or have them all one pattern or color. Its up to you.

DIRECTIONS FOR TOP OF BOOKMARKS – All Bookmark tops have the word "top" after the number.

All bottoms have a the word "Bottom" after the number.

TOP Bookmark

STEP 1

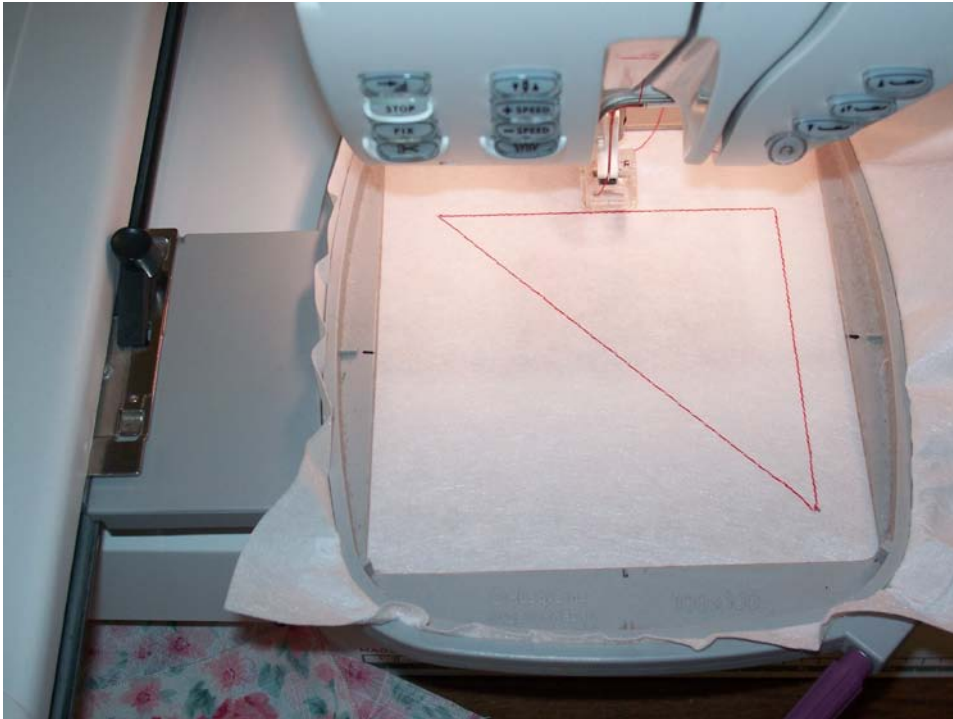

Take one of the blocks and fold in half diagonally making a triangle and press a nice crisp fold making sure the wrong side of the fabric is to the inside.

STEP 2

Hoop your stabilizer and place hoop on machine.

Stitch out first CC. This is a placement mark for your triangle. See Below:

Next place your triangle over the placement stitching and line it up so that the fold is along the center diagonal line. See Below:

Stitch next CC. This will tack the piece in place.

Follow the CC chart to finish the design. When finished remove from hoop and remove all the stabilizer from the back.

Trim around leaving about ½” of fabric, also cut across the corner as close to the stitching line as possible with out cutting the thread.

BOTTOM Bookmark

STEP 1

Hoop your stabilizer and place hoop on machine.

Stitch out first CC. This is a placement mark for your square. See Below:

Next place your square over the placement stitching making sure the line is covered by the fabric all around. Stitch next CC this tack down the fabric and then continue with the stitching the design.

After stitching design place you back fabric under hoop right side facing down.
Stitch next CC -- this will tack back in place.

Now place your triangle over top. Set the edge back away from the corner a little bit as pictured below where the scissor point is pointing and then stitch the tack down stitch. By cutting the top corner away you can use this to help line up triangle over top.

After tacking the top in place remove hoop and trim fabric from top and bottom.

Place hoop back on machine and finish with the satin stitch. Remove Bookmark from hoop and your finished.

ENJOY! Bonnie
