### **General Instructions**

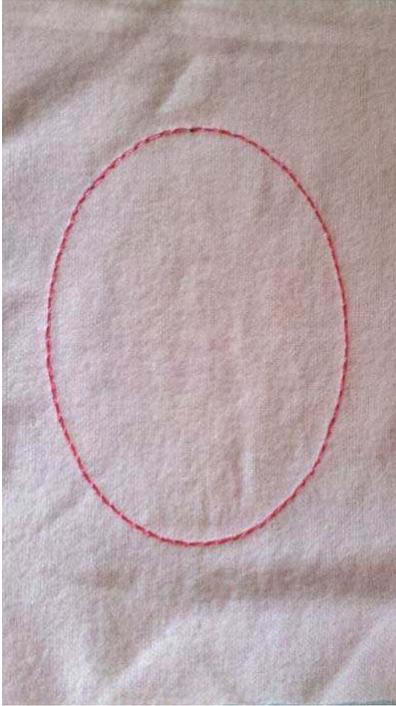

These can be stitched in the same color as fabric

Color #1: Outline placement, stitch this on the stabilizer

Place material over outline placement stitch

Color #2: tack down stitch

Stitch main design detail

After design is stitch, attach ribbon as follows

These last steps should be stitched in thread matching material.

Ribbon Placement:

Stitch and then the machine will stop.

Place a folded piece of ribbon on stitched line, making sure that loop is toward the center of the design.

Stitch next line.

Continue until all ribbons are in place

Back Piece:

Lay a piece of material face down over the top of the design.

Stitch down, this will leave an opening for stuffing.

Remove from hoop and tear away stabilizer.

Finishing:

Cut around design leaving enough material around to stitch the opening closed. 1/4"

Turn design right side out, stuff a suitable stuffing inside of toy and hand sew the end shut securely.
