

Freestandinglace Instructions

Thank you for purchasing my design!

Use thread in the colours of your choice and 2 layers of water soluble and a number 70 needle.

When stitched place in warm water untill soluble desolved.

Lay flat on a towel to dry.

When the parts are still wet, we give them the desired shape.

I do it like this.

Take yellow and black beads, hand needle and thread.

Next, assemble the pieces (you can use three or four or five pieces to make a flower to you liking) and sew them with beads.

From the bottom of the flower you can make the mount that you need. I made a fastening for a ribbon of felt.

Remember to use same top and bottom thread for perfect finish.

Enjoy the result of your work. You are well done!

I hope you enjoy the design!
