

Instructions

Use thread in the colours of your choice and 1 or 2 layers of water soluble lining and a number 70 needle.

Remember to use the same top and bottom thread to perfect finish.

1. Put the water soluble stabilizer in the hoop.

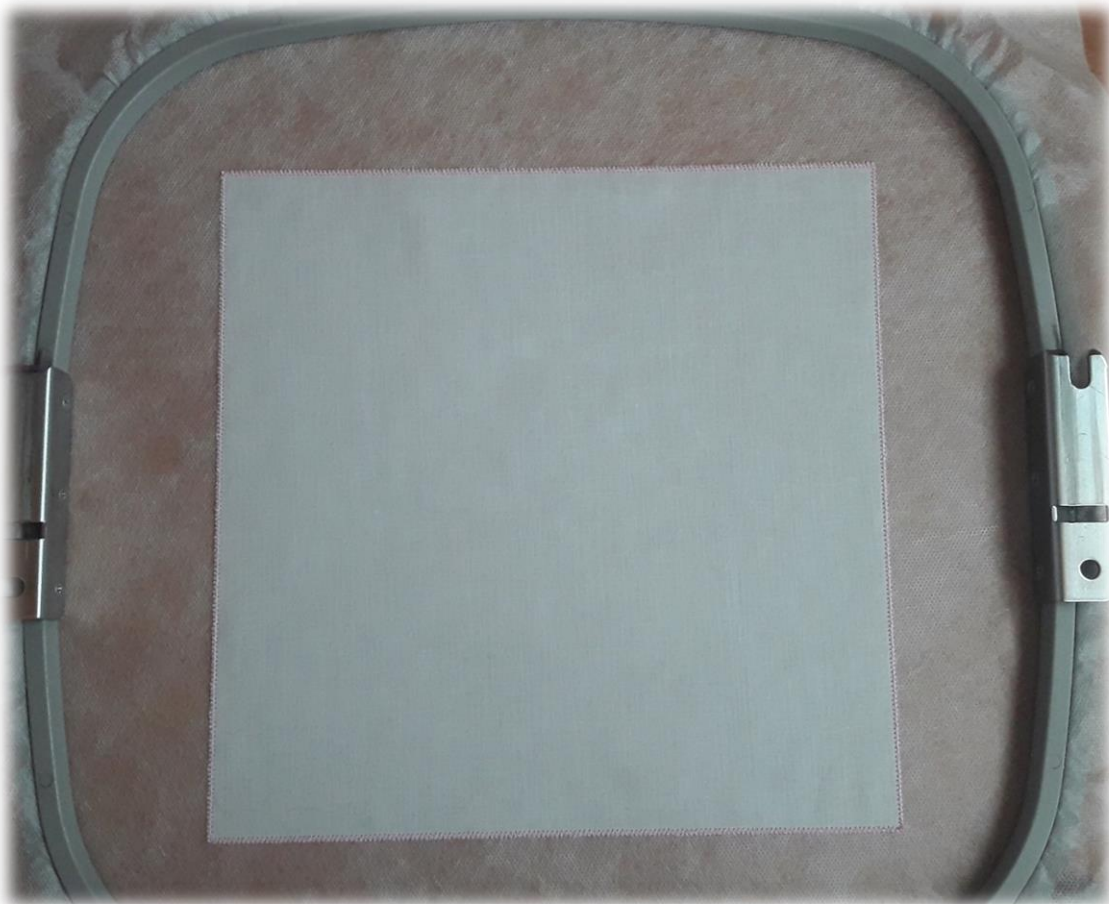

2. Prepare a piece of cloth for a handkerchief. Well fits thin cotton. Iron it. Put it on the water soluble stabilizer in the hoop and pin it.

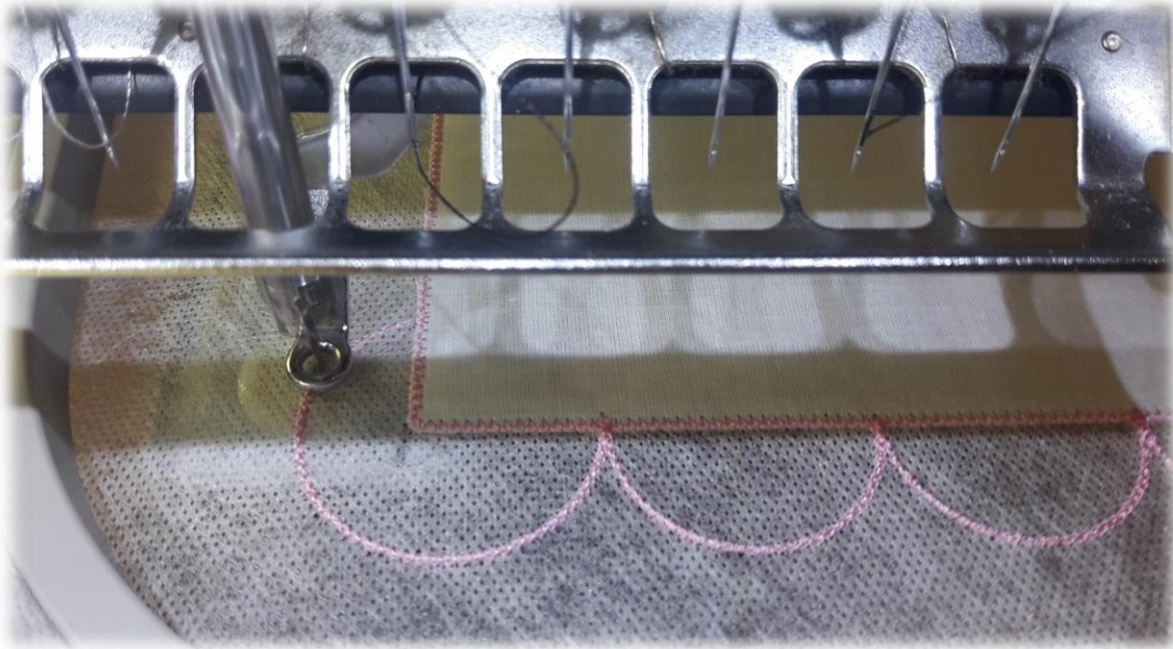

3. Embroider the first color.

4. Then trim excess fabric.

5. Embroider a second color.

6. Cut embroidery from stabilizer.

7. From the back of the kerchief, remove the water-soluble stabilizer.

8. Remains to rinse the embroidery in warm water until the water-soluble stabilizer is completely washed out.

9. Dry and iron the embroidery.

P.S. The design may be differ, the embroidery algorithm is the same.

Enjoy the result of your work!
