

# FSL-Angel-Girl-5x7-CF-NLS

## Instructions

This design is to be stitched on a **double layer of water-soluble stabilizer**. I use Pellon, 541 Wash-N-Gone.

1. Transfer design to embroidery machine.
2. Hoop two layers of water-soluble stabilizer in a 5x7 inch embroidery hoop and attach to embroidery machine.
3. Thread needle and bobbin with the same color thread.
4. Stitch design.
5. Remove hoop from machine and project from hoop.
6. Cut away all stabilizer from around the design...leave about 1 inch to ensure no border stitches are accidentally cut.
7. Place design in warm water and swish until the remaining 1 inch of stabilizer falls away from around the design.
8. Place on paper towel and blot to remove as much moisture as possible.
9. Lay flat to dry.
10. Hang on your tree, give to a friend or loved one or slip into a greeting card.
