

FSL-Magnetic-Floral-Bookmarks-5x7-CF-NLS

Instructions

		
NLSEE2633-5x7	NLSEE2634-5x7	NLSEE2635-5x7

Required Materials Chart

Materials	Size/Cut
Water-Soluble Stabilizer	Each Bookmark requires enough for 5x7 inch hoop
Magnetic Tape (I used 1 ½ inch wide-2 cm)	Each Bookmark requires 2 cuts at 1.75 inches (length)
Glue	I used Aleene's Tacky Glue
Threads-Choice of Colors	For each color of thread selected, wind bobbins to match

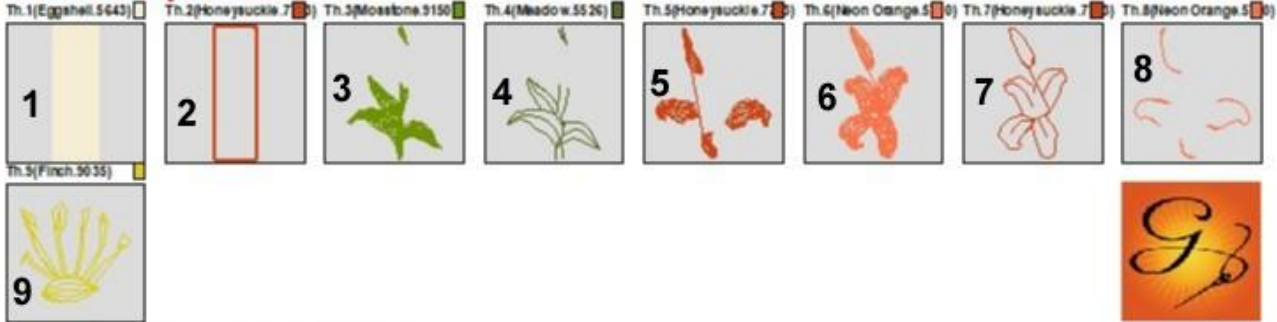

1. Transfer selected design to embroidery machine and attach to machine.
2. Thread both needle and bobbin with the thread color you wish the FSL background.
3. Sew #1 in the Color Sequence Chart. These stitches will create the background lace.
4. Remove hoop and clip all thread tails from front and back of hoop. Return hoop to machine.
5. Thread Needle and bobbin for the desired color for the motif border.
6. Sew #2 in the Color Sequence Chart. These stitches will create the motif border on top of the satin border.
7. Remove hoop and trim all thread tails from front and back of hoop. Return hoop to machine.
8. Thread needle and bobbin for the desired color for the greenery of the design.
9. Sew #3 in the Color Sequence Chart. These stitches will create the greenery of the flower.
10. Remove hoop and clip all thread tails from front and back of hoop. Return hoop to machine.
11. Thread needle and bobbin with desired color for flower heads.
12. Sew #4 in the Color Sequence Chart. These stitches will create the flower heads of the design.
13. Remove hoop and trim all thread tails from front and back of hoop.
14. Remove bookmark from hoop and trim away all but about ½ inch of stabilizer from around the bookmark.
15. Place bookmark in warm water and swish until the ½ of stabilizer around the bookmark falls away.
16. Remove bookmark from water, place on paper towel and blot dry.
17. Lay bookmark flat to dry.
18. When bookmark is dry, fold in half length-wise.
19. Cut two strips of magnetic tape, each at 1.75 inches.
20. Add glue to sticky side of tape and press on the backside , bottom and top of the bookmark. Use clips to hold magnetic tape in place while drying. (You can place heavy object on the magnetic tape instead of using clips.)
21. Remove clips when glue is dry (10 minutes or so, depending on glue used) (or heavy object).
22. Your bookmark is ready to use or give as a gift to that special reader.

Other designs in this set are sewn in the same manner. I have included the Color Sequence Charts of the other two designs below.
