## Totally Stable

### Iron-on Tear Away Stabilizer

#### Totally Stable Instructions

To use as a stabilizer for machine embroidery or appliqué, iron one to three layers on the wrong side of the fabric under the design area.

#### Ironing instructions:

Use a medium to cotton setting on your iron. Iron lightly without pressing, no steam. Too much heat for too long a time can make Totally Stable difficult to remove. Test first on a scrap piece of fabric especially when using dense or specialty fabrics such as batiks. Totally Stable bonds more quickly and more intensely on these kinds of fabrics.

Removal is easy once stitching is completed. Carefully trim or tear away excess Totally Stable immediately after stitching is complete to avoid residue staying on your fabric.

#### Others uses:

Totally Stable can also be used to trace or transfer designs for quilting, needle turn applique and as a reusable design template that can be ironed in place and reused several times.

For more creative ways to use Totally Stable visit our website. [www.sulky.com](http://www.sulky.com)

Totally Stable is also available on a 25 yard bolt - Item # 661-25,  
a 3 yd. package - Item # 661-03, an 8" roll Item # 661-08,  
a 12" roll Item # 661-12 and a 20" roll - Item # 661-20  
Machine wash warm or dry clean.

# TOTALLY STABLE™

## Iron-On, Tear-Away Stabilizer

*Totally stabilize virtually any fabric in seconds  
with no time-consuming pinning*

*Use one or more layers, then  
tear away layers separately  
to avoid pulled stitches.*

**Acid Free**

*Eliminates annoying shifting, sliding  
and puckering of fabric. Excess then  
tears away easily, leaving no sticky  
residue.*

#### Great For:

- Appliqué
- Monogramming
- Decorative Stitching
- Fabric Stamping
- Stretchy or Delicate Fabrics
- Transfer Agent

- Quilt Templates
- Stabilizing Fabric for Electronic Cutters

**WEIGHT:** Light

**COLOR:** White

**SIZE:** 20" x 36"

*Instructions Included*  
Item no. 661-01

## Use Totally Stable to make perfect reusable templates and as a stabilizer for machine appliqué

### Perfect Reusable Templates

1. Place the Totally Stable on top of the design and trace the design onto the Totally Stable.
2. Iron the Totally Stable onto your fabric, front or back depending if the design is reversed or not.
3. With the Totally Stable ironed down keeping your fabric from stretching and distorting, cut out the applique pieces.
4. Immediately remove the Totally stable pieces and re-iron over and over to cut out additional pieces.

### Stabilizing For Machine Appliqué

1. To prevent tunneling and puckering when stitching, iron a piece of Totally Stable onto the wrong side of the fabric that will be the base fabric on which the applique will be applied.
2. Arrange the applique pieces on the front of the base fabric. Use Sulky KK 2000, fusible web or a glue baste to stick in place.
3. Machine Satin Stitch through all layers, stitching around the cut edges of the fabric pattern pieces.
4. When the stitching is complete, tear away the Totally Stable, tearing towards the stitching line.
